**DIANETICS AND SCIENTOLOGY
COMPARED TO NINETEENTH CENTURY PRACTICES**

A comparison between Dianetics and Scientology and psychology and psychiatry is nonsense.

The two nineteenth century subjects, psychology and psychiatry, do not achieve ANY good results. On the contrary, they are destructive beyond belief. They make crackpots, sexpots and vegetables when they do not outright kill.

The greatest crime of our times is the use of psychology and psychiatry to teach little children in schools with them and manufacture crime and a whole world of immorality and unhappiness.

The character of the governments themselves is established by their tolerance and use of psychology and psychiatry. In no human race of any civilized repute has any law condoned broad mayhem and murder of their populations. Yet under modern governments psychology and psychiatry not only have carte blanche but also get insistence on their use.

Murderers flock to murderers, according to old sages. The governments only smile at the brand of Cain upon their heads.

Is this a civilized world we're living in?

I'm afraid it only will be when Dianetics and Scientology can bring wisdom enough to man to blunt his furious efforts to do himself in.

So laugh in people's faces if they compare Dianetics and Scientology to the "orthodox mental subjects." They are insulting you.
